## Profile

Experienced Fullstack Software Developer with more than 4 years of experience in Web & Mobile Development using the latest technologies with experience working in a company and as a freelancer as well. I have a decent knowledge of MVC architecture, REST-based Web Services, JavaScript frameworks together with different UI libraries and packages, relational database systems, multiplatform mobile app development (Android & iOS), computer networks, and desktop app development. I'm reliable, creative, can learn quickly, and take care of every detail.

## Employment History
